

ENDORF

the world's premiere acupressure mat

ALLT FÖR HÄLSAN
6-8 NOV 2009
STOCKHOLMSMÄSSAN

Endorf at Health Fair in Stockholm - a success!

We exhibited at the public show "Allt för hälsa" in Stockholm on November 6-8. A lot of visitors came to the stand. Many people had heard of the mat and came by to find out more. Most of the questions were on the subject of the difference between Endorf and the many textile-type mats that are on the market. We feel that we now, more than ever, have claimed the leading position among "second generation spike-mats".

Some comments and compliments from visitors:

- "brilliant design"*
- "nice colors"*
- "gentle and tuff, this suits the whole family"*
- "we will start recommending this mat at our clinic"*
- "at last - a hygienic mat"*
- "being able to adjust the length is a great feature"*

Our stand: small, but "edgy".

A lot of people took the opportunity to try "a real spikemat" for the first time.
